City College of Tagaytay Art
Symposium (2019)

HOBBIES

- Digital | Traditional Drawing
- Photo editing | Photo Manipulation

SUMMARY

As a programmer, I always put my best into what I am doing. I am not comfortable with settling. I am always looking for an opportunity to learn more and become better.

WORK EXPERIENCE

Lee Systems Technology Ventures 2022 - 2023

- Led the continuous maintenance and enhancement of the Point of Sale (POS) application, utilizing Angular and Node.js for optimal performance.
- Developed an Angular application dedicated to generating files for mall operations, featuring a robust socket connection for seamless integration with POS systems.
- Managed and optimized client databases, ensuring data accuracy and system reliability.
- Actively participated in collaborative ideation sessions, contributing insightful ideas to enhance overall system functionality and efficiency.
- Played a vital role in the enhancements of PHP systems, implementing optimizations and improvements for elevated efficiency.
- Provided dedicated support to both internal team members and clients, demonstrating effective communication skills and a customer-focused approach to problem-solving.

PROJECTS

CAPSTONE PROJECT

WEB-BASED FILE MANAGEMENT SYSTEM

2022

- To manage reports and documents in the SCS department
- To monitor submitted reports by the faculty members
- Developed using PHP, MySQL, Javascript, and CSS.

PERSONAL PROJECTS

PERSONAL WEBSITE PORTFOLIO

<https://josel-portfolio.netlify.app>

2022

- A working website portfolio that I created to refresh my skills in Web Development
- Created using HTML, Bootstrap/Css, and Javascript/Jquery

FLAMES GAME

<https://flames-game-memes.netlify.app>

2022

- A simple web game based on the 1990's teen games FLAMES
- I created this to practice vanilla js, plain CSS, and array and string manipulation in Javascript
